DETAILED ACTION

1. This is a response to the amendment, filed 6/21/04.
2. Claims 1-21 are pending.

Response to Arguments

3. Applicant's arguments, filed 6/21/04, are persuasive to overcome the prior art rejection to the claims. Applicant argues that the prior art of record does not teach nor suggest a method of caching data that includes increasing said cache from said first level to an optimum level concurrent with data outputting and adjusting the level of said cache concurrent with incoming data and data outputting to prevent said level of said cache from exceeding a maximum cache level and to prevent said level of said cache from decreasing below said first level, such that continuous streaming outputting of said data is provided. This argument is persuasive to overcome the prior art of record.

Allowable Subject Matter

4. Claims 1-21 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. Independent claims 1,8,15 are allowed for reasons indicated above.
7. Dependent claims 2-7,9-14,16-21 are also allowable for incorporating the limitations of the parent claim, and further limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
